

Tioga Smiles Mobile Dental Van

Provides services to many who otherwise would not get dental care. We invest in our kids and adults, preventing tooth decay, loss of teeth, and related health issues.

Rabies Prevention Program

Saves Lives:
Both people
and pets!

Communicable Disease

Investigating illnesses and their causes prevents outbreaks in our community. This saves lost workdays and medical expenses, as well as lives.

Food & Water Safety

Food and water inspections keep everyone safe and healthy!

What does our Public Health department do for tax payers?

Immunizations

Vaccines keep the community healthy and safe, and they keep kids in school.

Children's Services

Starting needed therapies early leads to better outcomes and less expenses in the long run.

Prevention is Key!
Public Health's plan is to pay a little now, rather than a lot later!

Public Health
Prevent. Promote. Protect.
Tioga County

What Do You Get from Public Health for Your Tax Dollars?

Tioga Mobile Dental

The Dental Van provides services to both children and adults. Seeing children at school saves parents money and keeps kids in class, furthering their education and minimizing oral health issues.

Rabies Prevention

Vaccine clinics keeps pets safe and alive, saving money by reducing costly treatments to humans who encountered unvaccinated animals.

Food & Water Safety

Food establishments and public water systems are permitted and inspected to keep residents safe and healthy, leading to less sick days and lost wages.

Immunizations

Providing vaccinations to children, and also educating physicians and parents on the importance of vaccines, keeps children safe, healthy, and in school. In turn, parents miss less work, saving them money.

Children's Services

Coordination of prescribed services for children ages birth to 5 for various therapies, leads to more productive lives for children and their families. Addressing needs early reduces long-term costs to the community.

Public Health is Funded By:

Taxpayer Funds:

- Federal Funds
